-Dropping an unloaded handgun

-Leaving the firing area with a loaded handgun

-Moving on a course of fire in breach of regulation

-During a shooting event when the handgun clears the holster it discharges and the round strikes the ground less than six feet from the firing line or goes over the

backstop berm.

-Pointing a loaded handgun up range.

-Dropping a loaded handgun.

-Consumption of alcohol or drugs when competing in a match.

DISQUALIFIED FROM ENTIRE TOURNAMENT- A competitor disqualified shall be disqualified from the entire tournament and not from the sub match or stage in which the violation occurred. He/she will be considered as having finished the tournament and shall be placed at the bottom of the list of finishing competitors for purposes of ranking. There will be no full or partial refunds of match fees to disqualified competitors.

EYE AND EAR PROTECTION Is required. No one will be allowed on the range without safety glasses and ear protection. The range office does have a supply of safety glasses and ear protection available to loan for competitors or visitors that need them.

After loading the handgun the competitor will remain in a "Hot" (loaded) condition until finishing the course of fire. NOTE ON AWARDS : Awards will be ordered from the vendor based on the number and type of entries received no later than July 15, 2023.

Example: On July 15, 2023 I have received one entry in Senior category. Based on that information I won't order an award for Senior award because there is only one competitor registered. However, after July 15, I receive two more late entries in the Senior category. I will then order an award for the Senior champion but it may not arrive in time to award on the match weekend. It would then be mailed to the winner of that category.

PRIZES: Last year I received great support from firearms industry vendors with a variety of prizes to randomly award to competitors and volunteers. I expect more of the same this year. I also anticipate awarding a gun prize by random drawing.

DISTINGUISHED POINTS

Competitors who are not NRA Distinguished will be eligible to earn points toward the award of the NRA Action Pistol Distinguished Excellence in Competition medal in the Action Pistol shooting sport.

The NRA Distinguished program recognizes sustained excellence in state and regional NRA Action Pistol competition. A medal is awarded when a competitor earns a total of 30 points in qualifying events.

Minimum qualifying score: 95% in the Open Division and 85% in the Metallic and Production Divisions. A minimum qualifying score for Production Optics has not yet been determined by NRA –in the meantime 90% will be the standard used. (e.g. in a 1920 point aggregate, the minimum score to qualify would be 1824 in the Open Division and 1632 in Metallic and Production and 1728 in Production Optics)

Credit points will be awarded as follows:

10 points to the highest scoring non distinguished competitor in Open, Metallic Sights, Production Divisions that fires a qualifying score.

7 points to the next highest scoring 10% of non distinguished competitors in Open, Metallic Sights, Production Divisions that fire a qualifying score.

5 points to next highest scoring 15% of non distinguished competitors in Open, Metallic Sights, Production Divisions who fire a qualifying score.

Example:

There are 20 non-distinguished competitors with a qualifying score (1632) in the Production Division

The highest scoring competitor is awarded 10 Distinguished Points

There are 19 non distinguished competitors with a qualifying score remaining. Award 7 points to 10% of the remaining qualifying competitors. $19 \text{ competitors} \times 10\% = 1.9$, award two (2) competitors 7 Distinguished Points apiece. Anything below .5 is not considered i.e. 1.49 would be rounded down to 1.

There are 17 qualified competitors remaining. Award 5 Distinguished Points to 15% of the remaining qualified competitors. $16 \text{ competitors} \times 15\% = 2.4$, round down to 2 and award 5 Distinguished Points to the 2 qualified competitors.

NOTE: Credit points are based on the overall match standings with primary or secondary gun.

Example: A competitor's primary gun is Open and that competitor is already Distinguished in Open Division. The competitor is not Distinguished in Production and desires to be Distinguished in Production Division. He/she enters a second gun in the Regional Aggregate Match in Production Division and fires a qualifying score with Production gun. He/she would then be in the "pool" of non-distinguished Production Division competitors and would be eligible to receive award points.

Competitors are eligible to set NRA National Records in the shooting events provided they are NRA Members and US Citizens. Current NRA National Records for all the NRA Action Pistol events can be viewed at the following website:
