

I would like to inform the WSSA membership that I am running for the position of WSSA vice-president. Consequently before I ask for your support I'd like to let you know a little about myself.

I am and have been a competitive F-class Target Rifle (FTR) shooter for the past four years. During this time I have competed not only at the local Wyoming, Colorado and Nebraska matches but also at Nationals and the Berger Southwest Nationals. I would like to bring my F-class experience to the WSSA board to help promote this style of competition.

I am presently on the Rawlins Shooting Range Advisory Board and am working on completing the long range facility at the Rawlins Outdoor Shooting Complex. I will be bringing to the range the best of what I have seen at the various ranges at which I have competed.

To make the range the finest that I can I will be using the Silver Mountain electronic target system, the same as was used at the 2016 NRA Long Range National Championship in Lodi, Wisconsin. This system will improve the scoring of an event providing instant reporting of shot placement and score to each shooter. No more waiting for a person to find a target to see shot taking far more time than we would like. Granted there will be a learning curve for the shooters, but I will be providing training/practice sessions for shooters to learn and practice on the targets.

I am excited about bringing experience in F-class shooting to the WSSA board and would appreciate your vote in the election.
