

## NOTES FROM THE NOV 2<sup>ND</sup> 2019 MEETINGS

The Meetings were conducted in the Cheyenne room, of the Holiday Inn Express Hotel, in Cheyenne Wyoming.

President Kenny Lankford chaired the meetings, and thanked everyone for coming to the meetings. At this point we begin to discuss the clubs accomplishments for this year, and our direction for the future.

We had a meeting with the Governors representative (Mr. Joe Budd) that went well. We hope to obtain the governors permission to issue an award (Governors Award) on behalf of the Governor, to youth and adults for conducting shooting events (matches) {both rim fire and center} as per the CMP and NRA rules allow. We also hope to have the 4-H involved in this. Paul and Cynthia went to the Wyoming State Legislative/Joint Judiciary Committee meeting about Fix /Nics. They made some good contacts. It appears our efforts at the 4-H state championship event at Douglas went well. We may have found some help to promote the shooting sports and conduct some clinics. The clubs trophy's, cups, and 1930 spotting scope is now being kept/stowed, and nicely displayed by the Hot Springs County Museum. It should be noted that the board officers/directors have had a busy year and much of this discussion was about ways to promote the shooting sports.

Kenny and Phil will work to upgrade and repair the Clubs A R rifles so that they can be used in next years planned clinics. Since we are almost out of membership cards, Nick will work on new designs for presentation to the Board with the new theme focusing on the clubs 100th anniversary, (1920-2020). Our website will be updated to reflect our 100th anniversary as well. We will be displaying our Winchester M-1 Garand rifle at the Hot Springs County Museum along with our other trophies. We were able to complete all of our state championship matches this year.
